Flying is our passion. And at the American Flying Academy, teaching others to soar to new heights is our life-long mission. That's why we employ professional flight instructors with years of practice, knowledgeable mechanics with a love for aircraft, and a seasoned chief instructor with years of commercial airline and flight-instruction experience.

Whether sharpening your skills or learning from scratch, as a student at the American Flying Academy, you'll experience the thrill and excitement of flying while learning new techniques and every day practices. Make your career as a commercial pilot or just enjoy the benefits of flying as a private pilot. Whatever your goal, we can help you achieve it.

Our academy offers a wide range of certificates and licences, ranging from private pilot and commercial pilot certificates, instrument rating and multiengine rating. Plus we offer a DGCA 6 Month Fast Track Program designed to fulfill the requirements for Indian students. Register today and experience the fun and adventure of taking flight! *prices subject to change without notice.
